# SEMINARS 2012

ALL SEMINARS TAKE PLACE FROM 7:30PM to 10:00PM

## FEBRUARY 8

**A Variety of Topical Issues:**

**SPEAKERS:**

*Jason Donohoe*, DVM  
*Colleen Mitchell*, DVM, DVSc., DACVR  
*Carl Porter*, DVM, MVSc., DACVS

Toronto Veterinary Emergency Hospital, Toronto, Ontario

This series of lectures will cover the following three topical issues in veterinary medicine:

**Evaluation and Triage of the Emergency Patient**  
**Radiographic Anatomy and Positioning –**  
 or – “Why do you need that straighter?!@#”

**Bandages, Splints and Casts – First, do no harm!**

**SPONSOR:** Hill’s Pet Nutrition Canada Inc.

## MARCH 7

**Dental Home Care: Concepts and Products**

**SPEAKER:** *Fraser Hale*, DVM, Fellow, Academy of Veterinary Dentistry, Diplomate, American Veterinary Dental College

Periodontal disease remains the most common health concern in dogs and cats. This presentation will review the causes of periodontal disease and the priorities in preventing/managing it. Then we will explore what owners can do at home between professional treatments to maintain optimum oral health.

**SPONSOR:** Veterinary Purchasing Company Ltd.

## APRIL 18

**“Uh-Oh They’re Neuro... Now What?!? Triage, Assessment, and Care of the Neurologic Patient.”**

**SPEAKER:** *Jennifer Panko*, RVT/CCRP  
 OVC Companion Animal Hospital

This lecture includes a brief overview of common canine and feline neurologic conditions and their presentations. Questions to ask clients and key points to be included

in case histories are highlighted. Triage and stabilization techniques for neurologic patients are outlined for each case. A basic neurologic examination for technicians is demonstrated with video and powerpoint. In-hospital care tips and physical rehabilitation recommendations are also discussed and demonstrated.

**SPONSOR:** Gateway Pet Memorial Services Inc.

## MAY 16

**Companion Animal Rehabilitation – An Evolution in Patient Care**

**SPEAKER:** *Tara Edwards*, DVM, CCRT  
 Toronto Veterinary Emergency Hospital

Canine & Feline rehabilitation has provided an evolution in patient care for small animal practices. This presentation will cover the basics of introductory rehabilitation and why it can be successful for many of our day-to-day patients. The modalities, therapeutic exercises, and assistive devices that are used for rehabilitation in both referral settings and general practice will be outlined. How rehabilitation can be applied in the orthopedic, geriatric, and neurological patient will be discussed. The ability to provide and promote physical well-being to our companion animals is an invaluable asset to any veterinary practice team member.

**SPONSOR:** Boehringer-Ingelheim Canada

## SEPTEMBER 12

**The Technician in Ophthalmology: Truly an Important Role**

**SPEAKER:** *Chantale Pinard*, DVM, MSc. Dip. ACVO, University of Guelph, Department of Clinical Sciences

In this presentation, the technician’s role in the ocular exam will be explored. The technician can also play an important role in admitting, triaging and treating of ocular emergencies. Examples of ocular emergencies and their “dos and don’ts” will be discussed at the end of the presentation.

**SPONSOR:** Merck Animal Health

## OCTOBER 17

**Every Pet, Every Time – Guidelines for Nutritional Assessment**

**SPEAKER:** *Robert Van Delst*, DVM  
 Hill’s Pet Nutrition Canada Inc.

The American Animal Hospital Association (AAHA) and the World Small Animal Veterinary Association (WSAVA) have created guidelines to provide small animal practices with help in assessing the nutritional needs of dogs and cats and in evaluating how they should be fed. These organizations believe that veterinarians and veterinary teams should incorporate a nutritional assessment and specific dietary recommendation for every pet, every time they visit. In this seminar, Dr. Robert Van Delst will “deconstruct” these guidelines in a way that makes sense for your own practice – helping you to work together with pet owners to assess the nutritional needs of each patient, and providing tips that will help you to have meaningful conversations with pet owners regarding some very common concerns.

**SPONSOR:** Hill’s Pet Nutrition Canada

## NOVEMBER 14

**Pain Management in the Hospitalized Patient**

**SPEAKER:** *Alexa Bersenas*, RVT/CCRP  
 Toronto Veterinary Emergency Hospital

This seminar will focus on acute pain management using popular, and new pain management strategies, including tramadol, buprenorphine, dexmedetomidine, gabapentin, as well as modes of drug delivery (eg, local anesthetic blocks and intravenous infusions). There will be an emphasis on individualized pain management using case based examples.

**SPONSOR:** Royal Canin Medi-cal®

**\*\* Please bring a sweater or jacket for your comfort, as room temperature can vary. \*\***

# HOSPITAL PERSONNEL 2012 Seminar Series

*Each Lecture Can be Applied to 2.5 Continuing Education Credits*

The lectures in the Hospital Personnel Seminar Series are provided for the educational benefit of all hospital staff, including Veterinary Series members, technicians, assistants, groomers, reception and all office personnel.

## BENEFITS

- 7 comprehensive continuing education seminars featuring some of Ontario’s most prominent speakers
- Comprehensive notes from the speaker
- Registrants at clinics where TAVM members of our Subscription Series practice are entitled to a 10% discount.

**Memberships are NOT transferable**
